

Over decades doctors & medical professionals have advocated that the best place your body heals is your home.

With your loved ones around you gain confidence & vitality many times faster than in any hospital.

Now imagine, if the same equipment & care you see in a hospital comes to your bedroom how happy life would be in those difficult times.

Just imagine & turn over:

*There is no place like home.*

*There is no place like home.*

### MATTRESS OVERLAY

#### ALPS IS COMMITTED TO KEEP YOUR SKIN SAFE

When you leave a hospital after a surgery or procedure the incidence of pressure ulcer or bedsores increase dramatically. This not only makes your condition worse but also hampers your chances to regain your lost health completely. Speciality mattress system not only cures bed sores but also reduces the chances of having them. our mattresses reduce shear, friction, moisture and heat which help in prevention and treatment of bed sores.

#### COMFY 1000

Specially **Anti Decubitus Mattresd** with clinically proven results in avoiding bed sores. Made from combination of 3 layers of **Memory, PU and Antibacterial foam.**

#### COMFY 2000

**Air mattress** series for class 1 bedsores. this is a low air loss pulsating mattress with a very silent pump. The inbuilt therapy adjustments ensure very comfortable postures for your back and skin.

#### COMFY 4000

**Medically approved** air mattress with programmable therapy for class 1 and 2 bedsores prevention and cure. The controllable pressure of pulsating air is useful for directed treatment for bedsores. It comes with a very silent pump which gives almost no air loss therapy.
